SUMMARY

Founder-operator and technical GTM lead with deep experience selling technical products to sophisticated buyers. Founding team at **GMX**, a decentralised derivatives exchange that scaled to \$450M+ TVL and \$40M+ annualised revenue with a team of three. Active AI developer since 2023; currently pairs OpenAI GPT-5.5 and Codex CLI with Anthropic Claude to ship production AI deployments including a live, revenue-generating prediction-market analytics platform and a public job-search engine. Native English, fluent Russian, fluent Spanish.

EXPERIENCE

Portico Ventures — *Managing Partner*

2021 – 2026

- Venture capital fund specialising in advising and investing in early stage DeFi/Fintech. Worked closely on GTM with several portfolio companies including **Gammawap** and **Codex.io**. Influenced **\$4M+ in aggregate fundraising** through advisory work and warm introductions.

GMX — *Founding Team · Growth & Partnerships*

2020 – 2023

- Three-person founding team. Top DeFi revenue generator during my tenure. Co-led institutional partnerships and capital formation; personally sourced **\$20M+ in cumulative capital deployments**.
- Closed and co-closed strategic partnerships with *Arbitrum*, *Avalanche*, *Chainlink*, and *Frax*, plus two other protocol integrations. Coordinated the Gambit → GMX rebrand and organised outreach to future partners.
- Built and led the institutional and community channels: 5,000+ Telegram members and direct relationships with eight-figure liquidity providers.

Effie Perine LTD. — *Operations & Client Relations*

2019 – 2020

- Managed financial accounts and operational administration for a private art dealership specialising in Old Master Pictures; annual transaction volumes in the £500K–£2.5M+ range.

INDEPENDENT AI DEPLOYMENTS

- **Slashwork.xyz** — fully live, free AI-deployed job-search engine for the startup and technical community, focused on fresh roles at tracked public-market companies. Built from scraper to production with Codex/GPT-5.5: ATS scrapers, SQLite/FTS search, admin workbench, systemd service, daily cron scrape, and public deployment. slashwork.xyz.
- **Pawlymarket** — live scraper and data aggregator using statistical models to identify market inefficiencies. \$50K ARR within two months of launch. pawlymarket.com.
- **Vinted-to-Depop reselling agent** — end-to-end autonomous fashion-arbitrage agent operated via Telegram.
- **Intelligent booking system** — Codex CLI-assisted agentic scheduler for a small local business; takes class bookings and organises future classes based on predicted demand.

EDUCATION

BSc Chemistry, *University of Manchester*, 2018.
